Quality of Life

Opening – Randy thank you for opportunity.

Funny A little girl asked her “ Mom how did the human race appear? The mother answered, “God made Adam and Eve and they had children, and so all of mankind was made”. 2 days later she asked her dad the same question and he said, “ Many years ago there were monkeys on earth and we evolved from them.” The confused girl asked her mom, why did dad say that. Well, dear it was very simple, I told you about my side of the family, and your father told you about his.

Our message today is on “ Quality of Life”

My message today comes from the works and words of Zig Zigler, Dale Carnegie, Dave Ramsey, and Dr. James Dobson. All of these people have wisdom and spiritual conviction to pass along to our society, and have made a profound difference in me and my family. They all realize that “If you help enough people get what they want, you will get everything you want.

Life is a journey made up of our families, friends, readings, hurts, failures, accomplishments, and the words given and shared to us. Our journey through Life is not a dress rehearsal. Life is a classroom- only those who are willing to be lifelong learners will move to the head of the class. Per Zig.

Please review and assess yourself. Balance is the key to keep the wheel rolling, and you must know where you are out of balance, and where you want to be. Flat spots slow down or stop life’s enjoyment. Set goals to work on the areas to attain balance. It takes 6 weeks to start a habit, good or bad. 6 weeks from now you could be on the way to the person you would like to be. Concentrate on yourself. Your family and friends depend on you, so take care of YOU before taking care of them. Remember the airplane oxygen.

Manners matter and affect 80% of relationships home, work, and public. Be nice and grateful, and be happy. An unhappy person is an ungrateful person.

To improve the Wheel of Life practice setting goals. What is the difference in a dream and goal? A goal is actually something you plan to do or accomplish.

1. Write out and define the goal. What do you want to be, do, or have.
2. What are the benefits of attaining the goal.
3. What are the obstacles?
4. Who do I need to work with, and what is the plan of action
5. Set the date for completion.

What you get by achieving your goals is not as important as what you become by achieving your goals.

We cannot start over, but we can begin now, and make a new beginning. The harder you work, the luckier you will get. Chill out and be humorous. If you are humorous you are 84% more likely to be successful.

You hit what you aim at, and if you aim at nothing you will hit it everytime.

Success is 85% attitude and 15% skills. Yet schools teaches us 90% facts and figures, and 10 % attitude.

Deal with STRESS. Stress is prescription. Change how you look at it.

1. Exercise reduces stress. Take a 15 minute walk by yourself
2. Hobbies do 3 times a week
3. Talk positive to yourself. Remember the worry chart.
4. Avoid self- medication. Deal with source.
5. Do something for someone else that they cannot do.

Dale Carnegie's book, "How to Stop Worrying and Start Living" main idea is whatever is worrying you, decide what is the worse that can come out of it. If you realize that and that it may come true, and you can accept that, you will stop worrying and start working on making the situation better.

Remember Plan B. Expect the best, prepare for the worst, and capitalize on what comes. Don't be distracted by criticism. The older I get I realize that there is opportunity in every disappointment. Also some of our prayers are not answered because it was not in our best interest. God knows best.

Have and set expectations for your family and professional life. People rise up to the expectations set. Practice the golden rule in both also. Remember life is a journey, and we want it to be a great one.

I would like to thank my wife for allowing me to try and be the person I wanted to be, and supporting me all the way. I have always been so proud of her, and it was the best thing that happened to me. I would like to thank my mother and father for having those expectations that we would be the best we could. I would like to thank my sons for being the kind of persons they are today, with their decisions on

mates and life, and just how proud I am of them. Also I would like to think my extended family and my wife's family for all the good years and support they have given.

In Closing:

Set down sometime and write your eulogy. If it is not what you wanted it to be, get busy. You still have time to make a difference to yourself and your family.

IN LIFE Try to be tender with the young, compassionate with the old, and sympathetic with the weak and strong, because before you die you will been all of these.

Thank you!

Scriptures – How to Obtain Quality of Life

Financial:

Proverbs 21:5 Good Planning and hard work lead to prosperity, but hasty shortcuts lead to poverty.

Family:

Hebrews 13:4 Give honor to marriage and remain faithful to one another in marriage.

1 Timothy 3:4 He must manage his own family well and see that his children obey him, and he must do so in a manner of full respect.

Career:

Galatians 6:4 Pay careful attention to your own work, for then you will get the satisfaction of a job well done, and you won't need to compare yourself to anyone else. For we are responsible for our own conduct.

Mental:

Proverbs 4:23 Guard your heart and mind above all else, for it determines the course of your life.

Physical:

1 Corinthians 6:19 Don't you realize that your body is the temple of the Holy Spirit, who lives in you and was given to you by God? You do not belong to yourself.

Daniel 1 12:16 Verse emphasizes the importance of moderation in our eating habits and warns against overindulgences, which can lead to poor health outcomes.

Spiritual:

Mark 12:29-31 And you must love the Lord your God with all your heart, all your soul, all your mind, and all your strength. The second is equally important: "Love your neighbor as yourself. No other commandments are greater than these."

Personnel:

Proverbs 16:24 Kind words are like honey – sweet to the soul and healthy for the body.

Mark 12:31 'Love your neighbor as yourself.'

New Life Pentecostal Message

Quotes by Zig Ziglar

I believe that being successful means having a balance of success stories across the many areas of your life. You can't truly be considered successful in your business life if your home life is in shambles.

People often say that motivation doesn't last. Well, neither does bathing - that's why we recommend it daily.

Building a better you is the first step to building a better America.

You are what you are and you are where you are because of what has gone into your mind. You change what you are and you change where you are by changing what goes into your mind.

If God would have wanted us to live in a permissive society He would have given us Ten Suggestions and not Ten Commandments.

What you get by achieving your goals is not as important as what you become by achieving your goals.

This I do know beyond any reasonable doubt. Regardless of what you are doing, if you pump long enough, hard enough and enthusiastically enough, sooner or later the effort will bring forth the reward.

You can have everything in life you want, if you will just help other people get what they want.

You were born to win, but to be a winner, you must plan to win, prepare to win, and expect to win.

Many people spend more time in planning the wedding than they do in planning the marriage

10 Years Of Wisdom in 1 minute

1. Life waits for nobody. Get up every day and keep pushing through, no matter what.
2. Make sure you take good care of yourself. If something happens to you the world will move on, and you will fall behind.
3. If you don't work to build your dream life, someone will hire you to build theirs.
4. Work in silence, celebrate in private. People love to ruin things.
5. Don't regret your past, just learn from it and move on.
6. No one cares. Work harder to become better each day.
7. Ignore advice from anyone who doesn't live the life you want to live.
8. Rule over your emotions. A calm mind can handle any situation.

Worry Statistics

Things that never happen	40%
Things that can't change	30%
Needless worry about health	12%
Petty & Misc. Worry	10%
Real Problems	8%

* Therefore 92% of the things people worry
about are uncontrollable.

Hopefully Bill Gates did write and deliver this. If he didn't he should have. Great. Like the person that sent it to me, kids and older kids, need to hear this monthly.

Subject: FW: Bill Gates - Brilliant , WOW

So/So very true!!!!

Bill Gates - Brilliant

~ Bill Gates ~

This should be posted in every
school or kid's bedroom.

Love him or hate him, he sure

*hits the nail on the head with
this.!!!*

Bill Gates recently gave a speech
at a High School about
eleven (11) things they did not
and will not learn in school.
He talks about how feel-good,
politically correct teachings
created a generation of kids with
no concept of reality and
how this concept set them up for
failure in the real world.

Rule 1 : Life is not fair - get used to it!

Rule 2 : The world doesn't care about
your self-esteem.

The world will expect you to accomplish
something

BEFORE you feel good about yourself.

Rule 3 : You will NOT make \$60,000 a
year right out of high school.

You won't be a vice-president with a
car phone until you earn both.

Rule 4 : If you think your teacher is
tough, wait till you get a boss

Rule 5 : Flipping burgers is not beneath
your dignity.

Your Grandparents had a different
word for burger flipping:

They called it opportunity.

Rule 6 : If you mess up, it's not your
parents' fault,
so don't whine about your mistakes,
learn from them.

Rule 7 : Before you were born, your
parents weren't as boring
as they are now. They got that way
from paying your bills,
cleaning your clothes and listening to
you
talk about how cool you thought you
were:

So before you save the rain forest
from the parasites of your parent's
generation,
try delousing the closet in your own
room..

Rule 8 : Your school may have done
away with winners and losers,
but life HAS NOT. In some schools,
they have abolished failing grades
and they'll give you as MANY TIMES as
you want to get the right answer.

*This doesn't bear the slightest
resemblance to ANYTHING in real life.

Rule 9 : Life is not divided into
semesters.

You don't get summers off and very
few employers
are interested in helping you FIND
YOURSELF.

*Do that on your own time.

Rule 10 : Television is NOT real life.
In real life people actually have to leave
the coffee shop and go to jobs.

Rule 11 : Be nice to nerds.
Chances are you'll end up working for
one..

If you can read this... Thank a
Teacher.

If you can read this in
English... Thank a Soldier!
And for life and everything else
you have... Thank God!!

Now.... think about this and smile
if you agree and please pass this
on....

Most workers hate their jobs or have 'checked out,' Gallup says

By RICARDO LOPEZ
Los Angeles Times

Seven out of 10 workers have "checked out" at work or are "actively disengaged," according to a recent Gallup survey.

In its ongoing survey of the American workplace, Gallup found that only 30 percent of workers "were engaged, or involved in, enthusiastic about, and committed to their workplace." Although that equals the high in engagement since Gallup began studying the issue in 2000, it is overshadowed by the number of workers who aren't committed to performing at a high level — which Gallup says costs companies money.

The poll, released last week, examined worker engagement beginning in 2010 and ending in 2012. The previous poll period covered 2008 through 2010.

The survey recognizes three types of employees among the 100 million in America who hold full-time jobs:

Actively engaged represents about 30 million workers.

Not engaged accounts for about 50 million

workers. These employees are just going through the motions.

Actively disengaged employees hate going to work. These workers — about 20 million — undermine their companies with their attitude, according to the report.

"The general consciousness about the importance of employee engagement seems to have increased in the past decade," said Jim Harter, chief scientist for workplace management and well-being. "But there is a gap between knowing about engagement and doing something about it in most American workplaces."

Gallup estimates that workers who are actively disengaged cost the United States as much as \$550 billion in economic activity yearly.

Employee engagement has been largely stagnant in the past decade, researchers say.

The report found that different age groups and those with higher education levels reported more discontent with their workplace. Baby boomers, for instance, are more likely to be "actively disengaged" than other age groups. Employees with college degrees are more likely to be running on autopilot at work.
